My dear Hilly:

Let me tell you again how much I appreciated your fine lecture and interesting discussion period. I can assure you that Intelligence is well served by your appearance at this College and some day the C.I.A. will profit abundantly therefrom.

On the personal side, I deeply lament of your flattering remarks. I regret exceedingly that on three occasions circumstances should have prevented me from entertaining you at home. Perhaps, some day we can get together and really talk privately, let our hair down and enjoy sessions such as we used to have in Paris.

Again thank for helping me out on my teaching job.
